Improving Access to Mainstream Services for Families with Children Experiencing Homelessness

Hilton Anaheim
Anaheim, CA
November 1 – 3, 2005

VISION STATEMENTS

California

Guided by the needs of families, California will prevent and end family homelessness through a collaborative approach that builds on their strengths by providing housing and supports that foster independence.

Colorado

We envision a Colorado where the community including public and private sectors has united and collaborated to make homelessness a rare and brief experience that does not cross into future generations.

Indiana

Indiana envisions a future in which no Hoosier is Homeless.

Massachusetts

Massachusetts' vision is to end family homelessness by implementing a coordinated plan of prevention and expanding access to permanent affordable housing, mainstream services and other supports.

Montana

Partnerships are forged to ensure that the housing and services needed to prevent and end homelessness are readily available.

Rhode Island

We envision a Rhode Island where no one is homeless. Every person has appropriate housing and adequate income, receives effective services, and has hope for the future.

Utah

Every person has access to safe, decent, affordable housing with the needed resources and support for self-sufficiency and well-being.
