2010 award presented to the Collaborative

The HRSA Patient Safety and Clinical Pharmacy Services Collaborative was selected to receive the 2010 Healthcare Transformation Award from Communities Joined in Action (CJA).

For this award, CJA recognizes a replicable and transferable idea, tool, project, or learning that has value in community safety net care. PSPC will be invited to share their idea, tool, project or learning with the national membership on a webinar, or to include related documents as a resource for the CJA Library. The outcome / utility of this award will be to hardwire into CJA’s culture the dissemination of good ideas among the national community and to feature a “best in class” idea per year.

The award was presented during the Annual Conference “Healthcare Reform: Mobilizing for Change” from October 6-8, 2010 at the Renaissance Hotel in Denver.
