

Health Resources and Services Administration

*Improving health and health equity through
access to quality services,
a skilled health workforce and
innovative programs*

Updated March 2016

HRSA's Mission and Strategic Plan

- HRSA's Mission is: To improve health and achieve health equity through access to quality services, a skilled health workforce and innovative programs.
- Strategic Plan supports the mission to help provide the building blocks that Americans need to live healthy, more productive lives.
- The Health Resources and Services Administration (HRSA) is the primary federal agency for improving access to health care services.
- Awards grants to state, local and community-based organizations that deliver health care services

Agency Goals

**Increase
Access to
Quality
Health Care
and Services**

**Strengthen
the Health
Workforce**

**Build Healthy
Communities**

**Improve
Health Equity**

**Strengthen
Program
Operations**

HRSA Major Program Areas

- **Health Workforce**
- **Primary Health Care**
- **Healthcare Systems**
- **HIV/AIDS Care**
- **Maternal and Child Health**
- **Rural Health**

HRSA Programs

Organ Donation
Maternal Health Initiative
Hansen's Disease
Telehealth
Workforce Training Primary Care
Healthy Start Health Centers
Ryan White HIV/AIDS Program Women's Health
Newborn Screening Rural Health
340B Drug Pricing
Stop Bullying
Global HIV/AIDS Program
Emergency Medical Systems for Children
National Health Service Corps Home Visiting

Increase Access to Quality Health Care and Services

One in 3 people living at or below the poverty level relies on a HRSA-supported health center for primary medical care

One in 2 people diagnosed with HIV receives care through the Ryan White HIV/AIDS Program

9.7 million people living in health professional shortage areas receive primary medical, dental or mental health care from a National Health Service Corps clinician

Increase Access to Quality Health Care and Services

More than half of pregnant women and more than a third of infants and children benefit from maternal and child health block grants

More than 700,000 rural Americans receive health services thanks to rural community-based grants

About 115,500 parents and children participate in the national Home Visiting Program

About 6,000 life-saving unrelated blood stem cell transplants facilitated annually

Bureau of Primary Health Care Key Strategies

Strengthen the Health Workforce

11,400 medical, dental, and mental and behavioral health care providers in the National Health Service Corps and NURSE Corps work in health professional shortage areas

1,100 students, residents, and health providers in training receive NHSC scholarships to work in underserved communities upon graduation and licensure

Support for targeted health professions training programs focused on inter-professional care, geriatrics and autism, among others, as well as programs that increase workforce diversity

Strengthen the Health Workforce

Support health centers that employ multi-disciplinary teams – **10,700+ physicians and 8,000+ nurse practitioners, physician assistants, and certified nurse midwives**

Support primary care residency programs in **60 Teaching Health Centers** to help train more than **550 residents annually**

Trained **4,000 new mental health providers** to increase access to mental health services, and make schools safer

Strengthen the Health Workforce

Build Healthy Communities

Coordinate health care activities for **57 million rural Americans**

Support providers in rural and isolated areas improve patient care with the use of telehealth, telemedicine and health IT

Improve perinatal health outcomes and reduce racial and ethnic disparities by using community-based service delivery through Healthy Start

Improve Health Equity

Provide linguistically appropriate enabling services (e.g., housing, food, and job support) to more than **two million patients** through community health centers

Ryan White HIV/AIDS clients' **viral suppression rates improved nine percent in three years** – from 70% to 79% from 2010 to 2013. Viral suppression rates improved the most within disproportionately affected demographic groups, decreasing health disparities

Save qualified safety net organizations about \$3.8 billion annually through the 340B Drug Pricing Program

Strengthen Management and Operations

- **Customer Satisfaction**
- **Innovation**
- **Results-Oriented**
- **Employee Recruitment and Retention**
