

Notice to 340B Covered Entities for the Period Q4 2012 through Q1 2013

GlaxoSmithKline Consumer Healthcare ("GSKCH")(GlaxoSmithKline Consumer Healthcare, L.P., a Delaware Limited Partnership) is adjusting the prices GSKCH previously charged to Covered Entities for the following products for the time period of fourth quarter of 2012 through the first quarter of 2013:

NDC Number	Brand	Description
00135 0513 01	Nicorette	Cherry Loz 4 mg 72 ct
00135 0512 05	Nicorette	Cherry Loz 2 mg 72 + 9 ct Bonus
00135 0511 05	Nicorette	Mint Loz 4 mg 72 + 9 ct Bonus

The need for adjustment is a result of GSK's recalculation of average manufacturer prices reported to CMS under the Medicaid Drug Rebate Program. 340B Covered Entities entitled to refunds will be sent payments for amounts of all overcharges exceeding \$100 that GSKCH has identified. GSK CH is tracking this area, and there are currently no Covered Entities exceeding the \$100 threshold. These amounts will not be carried forward and they will not be used in calculations outside of the above period.

Covered Entities that wish to inquire about this adjustment should contact:
