

Notice Regarding 340B Pricing for Heritage Products

Heritage Pharmaceuticals Inc. (Heritage) has recently determined that 340B pricing to participating 340B-covered entities was not extended on purchases of its products made between April 18, 2008 and December 31, 2014. Heritage has asked the Office of Pharmacy Affairs to post this notice on its website to provide information to covered entities who believe that they may have purchased Heritage products during the relevant period concerning the process for requesting a refund.

Refunds may be available for participating covered entities' eligible purchases of products bearing Heritage NDC labeler code 23155 which were purchased either directly from Heritage or through a wholesale distributor during the relevant period.

If you believe that your covered entity may be affected and would like to pursue a refund request, please contact Mr. Damian Finio at 340B@heritagepharma.com on or before August 1, 2016 to initiate a request. Please note that you will be requested to provide documentation of your purchases of Heritage products and participating covered entity status as part of the refund request process.
