Geriatrics Academic Career Awards Program

HRSA-23-007

Geriatrics Academic Career Awards (HRSA-23-007)

Purpose: To support the career development of junior faculty as academic geriatricians or academic geriatrics specialists.

Goal: There is one program goal for the GACA program with three parts:

- A. Develop the necessary knowledge and skills to lead health care transformation in a variety of settings, including rural and/or medically underserved settings;
- B. Be age-friendly, which means to incorporate the age-friendly health framework into your program;
- C. Provide training in clinical geriatrics, including the training of interprofessional teams of healthcare professionals to provide healthcare for older adults.

Geriatrics Workforce Enhancement Program

HRSA-24-018

Geriatrics Workforce Enhancement Program (HRSA-24-018)

Purpose: Improve health outcomes for older adults by developing a healthcare workforce that maximizes patient and family engagement, and by integrating geriatrics and primary care.

Goal: Educate and train the primary care and geriatrics workforces and other appropriate specialties to provide age-friendly and dementia-friendly care for older adults in integrated geriatrics and primary care sites/delivery systems.

Geriatrics Workforce Enhancement Program (HRSA-24-018)

FY 2024 Funding	\$43,000,000
Ceiling Award Amount	Up to \$1,000,000 per year
Number of Awards	Approximately 43
Period of Performance	July 1, 2024 through June 30, 2029 5-years

Geriatrics Workforce Enhancement Program (HRSA-24-018) (Cont'd)

Objectives:

1. Develop reciprocal partnerships between academia, primary care sites/delivery systems (including nursing homes), and community organizations, to transform clinical training environments into integrated geriatrics and primary care sites/delivery systems that are age-friendly and dementia-friendly.
2. Provide interprofessional geriatrics clinical training and education to students, residents, fellows, faculty, and preceptors in Tribal, Tribal Organizations, Underserved and/or Rural (TTOUR) primary care sites/delivery systems with the intent to have them practice in these sites upon completion of their program.
3. Establish and/or maintain education and training programs in TTOUR primary care sites/delivery systems that provide the supportive care workforce, direct care workers, and the primary care workforce with the knowledge and skills to improve the care of older adults, including persons living with dementia, by using innovative technology and methods.
