Congenital Syphilis

- Congenital syphilis in the U.S. has **increased more than 10-fold** since 2012
- **About 90% of cases are preventable** with timely testing and treatment
- In **almost 40% of cases**, mothers received **no prenatal care** during pregnancy

Congenital Syphilis- How You Can Help

- Partner and collaborate with organizations that provide care to pregnant women
- Share the importance of:
 - Screenings before pregnancy, first prenatal visit, 3rd trimester, and delivery (depending on county rates)
 - Timely treatment for positive cases
- Visit CDC site to see if your county is above the Healthy People 2030 target (4.6 per 100,000 women)
