**Mylan Institutional LLC  
Notice Regarding Triamcinolone Acetonide Injectable  
Suspension National Drug Code Numbers And Impact  
on 340B Virtual Inventory Management**

Mylan Institutional LLC, a Viatris company (“Viatris”) has asked the Office of Pharmacy Affairs (“OPA”) to post this notice on OPA’s public website to notify 340B covered entities that all strengths of Triamcinolone Acetonide Injectable Suspension, for intramuscular or intra-articular use only are being transitioned to a **new pack size** with new national drug codes (NDCs) as follows:

<b>Description</b>	<b>Old / Existing NDC</b>	<b>Old / Existing Pack Size</b>	<b>Replacement / New NDC</b>	<b>Replacement / New Pack Size</b>
Triamcinolone 40ml/ml 1mL SDV	67457-621-02	1 vial	67457-621-99	25 vials
Triamcinolone 40ml/ml 10mL SDV	67547-623-10	1 vial	67457-623-99	25 vials
Triamcinolone 40ml/ml 5mL SDV	67457-622-05	1 vial	67457-622-99	25 vials

Viatris will sell its remaining inventory of each old NDC until it is exhausted. Viatris or your distributor will communicate further information regarding the availability of each new pack size NDC.

The new NDCs do not signify any change in product form, strength, or composition. Viatris will treat each new NDC the same as the corresponding old NDC with respect to pricing and purchasing on a per vial basis from Viatris under the 340B program (the per-package ceiling price for the new NDCs will reflect the change in the number of vials in the new pack size). Because each new NDC represents the same product with the same 340B ceiling price per vial as the corresponding old NDC, Viatris will permit an eligible 340B covered entity using a compliant 340B inventory replenishment model to count accumulations of each old NDC toward replenishment of equal quantities (at the vial level) of each corresponding new NDC. As an example, Viatris will permit eligible 340B covered entities to replenish accumulations of 25 packages (equaling a total of 25 vials) of each old NDC with one package of 25 vials of the new NDC.

Any questions regarding this notice can be sent to Viatris Customer Service at [Customer.Service@Viatris.com](mailto:Customer.Service@Viatris.com).
