In 2025 & 2026, Amgen introduced new National Drug Codes (NDCs) to replace the corresponding Amgen NDCs listed below.

340B Inventory Replenishment:

Because the new NDCs are the same products (drug, dose, formulation, or volume) with the same 340B price as their corresponding NDCs, Amgen believes that a covered entity utilizing a 340B inventory replenishment model may count accumulations of the old NDCs toward replenishment of equal quantities of the corresponding new NDCs (see table below). Any questions regarding this matter can be directed to 340BRelations@amgen.com.
