

In April 2025 Amgen launched the Repatha® 140 mg/ml Auto-Injector (72511-0393-02) to replace the Repatha® 140 mg/ml Auto-Injector (72511-0760-02).

340B Inventory Replenishment:

Because the new NDCs are the same product (drug, dose, formulation, or volume) with the same 340B price as the corresponding NDCs, Amgen believes that a covered entity utilizing a 340B inventory replenishment model may count accumulations of the of the old NDC's toward replenishment of equal quantities of the corresponding New NDC (see table below). Any questions regarding this matter can be directed to 340BRelations@amgen.com.
