

Notice Regarding Limited Distribution Network for Nourianz (Istradefylline)

This notice provides information for 340B Covered Entities regarding the distribution of Nourianz (Istradefylline), National Drug Codes 42747-604-900 and 42747-602-900. Nourianz is distributed by Kyowa Kirin, Inc. (“KKI”) through a limited distribution channel to patients through specialty pharmacies owned either by Caremark, LLC or Walgreens Co. To ensure that 340B Covered Entities have access to Nourianz at the 340B Ceiling Price for qualifying 340B patients, KKI has arranged for Nourianz to be available for purchase at the 340B Ceiling Price directly from KKI’s third party logistics provider—Cardinal Health. In addition, Nourianz can be obtained from both Caremark and Walgreens specialty pharmacies to the extent the 340B Covered Entities have a contract pharmacy relationship with such pharmacies.

KKI takes its obligations under the 340B program seriously and developed this approach to ensure that all 340B Covered Entities can access Nourianz at the 340B Ceiling Price. If you have any questions regarding distribution of Nourianz or experience difficulty obtaining Nourianz at the 340B Ceiling Price for your qualifying 340B patients, please contact Jude McNamara jude.mcnamara@kyowakirin.com.
