**Biocon Biologics Inc.
Notice Regarding
INSULIN GLARGINE-YFGN
National Drug Code Number Update and Impact on 340B
Virtual Inventory Management**

Biocon Biologics Inc, a Biocon Biologics Limited company (“Biocon”) has asked the Office of Pharmacy Affairs (“OPA”) to post this notice on the OPA’s public website to notify 340B covered entities that the national drug code (NDC) number for Insulin Glargine-yfgn is being transitioned to new NDC as follows.

The NDC change will be accompanied by product packaging changes as ownership of these products has changed from Mylan Specialty L.P., a Viatris company (“Viatris”) to Biocon Biologics Inc.

Product Description	OLD/EXISTING NDC	NEW/REPLACEMENT NDC	Pack Size	Effective Date
Insulin Glargine-yfgn 10 mL multiple-dose vial	49502-393-80	83257-014-11	1 vial	October 23, 2023

Biocon Biologics or your distributor will communicate further information regarding the availability of each new NDC with those new NDCs being available as early as October 23, 2023. Old NDCs will continue to be sold through post October 23rd and will continue to be available until depletion.

The new NDCs do not signify any change in product form, strength, or composition. Biocon Biologics will treat each new NDC the same as the corresponding old NDC with respect to pricing and purchasing from Biocon Biologics under the 340B program. Because each new Insulin Glargine-yfgn NDC represents the same product with the same 340B price as the corresponding old NDC, Biocon Biologics will permit an eligible 340B covered entity using a compliant 340B inventory replenishment model to count accumulations of each old NDC toward replenishment of equal quantities of each corresponding new NDC.

Biocon Biologics wishes to emphasize that 340B pricing for the new NDCs will remain the same as for the old NDCs.

Please see the table, below, for additional product information.

Product Description	10-digit NDC	11-digit NDC	Pack Size	Effective Date
Insulin Glargine-yfgn 10 mL multiple-dose vial	83257-014-11	83257-0014-11	1 vial	October 23, 2023
