## A Message Regarding Potential PHS Refund

Recently, Lifestar Pharma completed a minor restatement of government pricing values. These minor restatements impacted the Public Health Service pricing on certain drugs that were purchased between 10/1/2022 and 11/17/2022. Lifestar Pharma has identified all Covered Entities that may be owed a refund for purchases during this timeframe and is in the process of directly contacting any Covered Entity owed a refund greater than \$50.00 by U.S. mail.

Lifestar Pharma is also committed to issuing a refund to any Covered Entity that was overcharged on a PHS purchase made between 10/1/2022 and 11/17/2022 that was not contacted directly via U.S. mail – this includes Covered Entities owed a refund of less than \$50.00.

Covered Entities that wish to inquire can do so by emailing [Lifestarphsrefund@prescriptionanalytics.com](mailto:Lifestarphsrefund@prescriptionanalytics.com) by March 31, 2024. The Covered Entity will be asked to provide proper documentation of an overcharge during the relevant time period. However, Lifestar is committed to working with eligible covered entities to determine if there was over payment and issue the appropriate refund owed, if any.

**Refund checks will be issued to the facility and matching Federal Tax ID number.**
