

## Notice Regarding Adjustment of 340B Prices for Select Products of Lupin Pharmaceuticals Inc.

Lupin Pharmaceuticals Inc. (“Lupin”) has recalculated its 340B ceiling prices for certain products for the period Q4 2018 through Q1 2019 (the “Restatement Period”). The products impacted are listed below. The recalculation of ceiling prices is due to minor errors in calculation (such as rounding errors) for the products listed for the period from Q4 2018 through Q1 2019.

Lupin has asked the Office of Pharmacy Affairs (“OPA”) to post the notice to the OPA public website to ensure transparency by providing access to information regarding Lupin’s recalculation, and potential overpayments by certain 340B Covered Entities (“Covered Entity”), for impacted Lupin products related thereto. In the event that Lupin data demonstrates that a Covered Entity overpaid by **\$10 or more** in the aggregate for the impacted products during the Restatement Period, Lupin will work to issue refunds to those Covered Entities.

However, should Lupin data demonstrate that a Covered Entity overpaid by less than **\$10** in the aggregate for the impacted products during the Restatement Period, Lupin will not issue a refund to such Covered Entity on its own accord. If a Covered Entity believes that it has overpaid by less than \$10 in the aggregate for the impacted products during the Restatement Period, and the Covered Entity would like to request a refund, such Covered Entity should contact Lupin directly via email at [Lupin340b@lupin.com](mailto:Lupin340b@lupin.com). If a Covered Entity is not contacted by June 30, 2020, then it has been determined that the organization’s overpayments are below the \$10 impact level. The Covered Entity may contact Lupin as directed to obtain a refund, and Lupin will accept requests received on or before Aug 31, 2020.

Lupin will issue a refund for an aggregate overpayment of less than \$10 by a Covered Entity for the impacted products during the Restatement Period upon its timely receipt of the Covered Entity’s request, and validation of the same.
