

**Biocon Biologics Inc.**  
**Notice Regarding SEMGLEE®**  
**National Drug Code Numbers Update and Impact on**  
**340B Virtual Inventory Management**

Biocon Biologics Inc, a Biocon Biologics Limited company (“Biocon”) has asked the Office of Pharmacy Affairs (“OPA”) to post this notice on the OPA’s public website to notify 340B covered entities that the national drug code (NDC) numbers for Semglee are being transitioned to new NDCs as follows.

These NDC changes will be accompanied by product packaging changes as ownership of these products has changed from Mylan Specialty L.P., a Viatrix company (“Viatrix”) to Biocon Biologics Inc.

<b>Product Description</b>	<b>OLD/EXISTING NDC</b>	<b>NEW/REPLACEMENT NDC</b>	<b>Pack Size</b>	<b>NDC Cutover Date</b>
SEMGLEE 10 mL multiple-dose vial	49502-250-80	83257-011-11	1 vial	February 19, 2024

Biocon Biologics or your distributor will communicate further information regarding the availability of each new NDC, with those new NDCs being available as early as February 19, 2024. **Old NDCs will continue to be sold by Biocon Biologics post February 19, 2024 and will continue to be available until depletion.**

The new NDCs do not signify any change in product form, strength, or composition. Biocon Biologics will treat each new NDC the same as the corresponding old NDC with respect to pricing and purchasing from Biocon Biologics under the 340B program. Because each new Semglee NDC represents the same product with the same 340B price as the corresponding old NDC, Biocon Biologics will permit an eligible 340B covered entity using a compliant 340B inventory replenishment model to count accumulations of each old NDC toward replenishment of equal quantities of each corresponding new NDC.

Biocon Biologics wishes to emphasize that 340B pricing for the new NDCs will remain the same as for the old NDCs.
