Notice to Covered Entities Regarding 340B Ceiling Price Availability for Certain NDCs Between August 1, 2022 and August 11, 2022

ViatriS Inc. (“ViatriS”) has asked the Office of Pharmacy Affairs (“OPA”) to post this notice on OPA’s public website to notify 340B covered entities of a recent, one-time system transition issue that may have inadvertently resulted in the inability of covered entities to purchase the NDCs listed in the attached table (“Impacted NDCs”) at the 340B ceiling price between August 1, 2022 and August 11, 2022 (the “Transition Period”).

In connection with a system integration, a ViatriS contractor inadvertently sent an automated notice to certain wholesalers and distributors (“340B Distributors”) terminating the 340B pricing for the Impacted NDCs as of August 1, 2022 and was unable to correct this issue electronically until the close of the Transition Period. As a result, some 340B covered entities may have been unable to access 340B ceiling prices for the Impacted NDCs between August 1, 2022 and August 11, 2022.

ViatriS has confirmed that each of its 340B Distributors now has the correct 340B pricing loaded in its systems, including for the Transition Period. Accordingly, if a 340B Covered Entity intended to purchase any of the Impacted NDCs at the 340B ceiling price, and due to unavailability of the 340B ceiling price, purchased the Impacted NDC at a price higher than the 340B ceiling price between August 1, 2022 and August 11, 2022, it should contact the 340B Distributor from which it purchased the Impacted NDCs no later than January 31, 2023 and submit a credit/rebill request for the 340B ceiling price.

Any covered entity that is unable to process a credit/rebill through the 340B Distributor from which it purchased the Impacted NDCs may reach out to ViatriS Customer Service at Customer.Service@ViatriS.com or 1-800-796-9526 for further assistance. To enable processing of such inquiries, covered entities must provide ViatriS Customer Service with a copy of the credit/rebill request submitted to the 340B Distributor, as well as the NDC, quantity purchased, original purchase invoice number, invoice date, and the name of the 340B Distributor from which the product was purchased.

Impacted NDCs (continued)
