

In FY 2022, the Health Resources and Services Administration (HRSA) – through the Federal Office of Rural Health Policy (FORHP) – **provided approximately \$12.5 million in funding to the state of Illinois to increase health care access, strengthen health networks, and focus on care quality improvements for Critical Access Hospitals and small rural hospitals.** FORHP is also supporting HRSA's goal to achieve health equity by supporting efforts to strengthen health care delivery systems, reduce the morbidity and mortality associated with substance use disorder, and provide COVID-19 pandemic relief in rural communities.

By increasing access to quality services and training a more skilled health workforce, these investments from FORHP have allowed communities in Illinois and across the country to improve health outcomes and address health disparities.

Program Name	Fiscal Year	Grant Number	Grantee Name	County	Award Amount	Congressional District
