Dear Manufacturers,

I am writing on behalf of Jackson Health System (JHS) (**DSH100022**) to inform manufacturers that Jackson Health System recently underwent an audit by the Health Resources and Services Administration (HRSA) of **Jackson Health System's** compliance with 340B Drug Pricing Program (340B Program) requirements.

As background, Jackson Health System qualified for the 340B Program as a Disproportionate Share Hospital in Miami-Dade County and has participated in the 340B Program since December 1, 1992.

Through the audit process, Jackson Health System was found to have a single incident of non-compliance within their 340B Program and responsible for repayment as a result of the following finding(s):

For one patient, JHS dispensed a 340B drug to an ineligible individual, as prohibited by section 340B(a)(5)(B) of the PHSA.

Jackson Health System has identified all affected manufacturers and has contacted each to notify them of these violations to begin a dialogue on a method for repayment to affected manufacturers. If manufacturers have not received notification from Jackson Health System and believe repayment may be owed for the violations described in this letter, or if you have any questions or comments regarding the violations described in this letter please contact:
