Federal Office of Rural Health Policy (FORHP) Celebrates Rural Health Day

NEARLY 1 IN 5 Americans live in rural communities totaling about 57 MILLION PEOPLE across the country.

Only 5½ physicians serve 10,000 people in rural communities. That is less than ¼ of the national average.

FORHP + 400 GRANTEES + 400,000 RURAL RESIDENTS

FORHP funds more than 400 grantees and impacts the lives of about 400,000 rural residents.

FORHP grantees reach Americans in all 50 states.
